⚑ NOTICE — Targets are illustrative and must be confirmed by the LIFT Center team before submission. "% Businesses Realizing Revenue Growth" is a year-end rate (12-month comparison), not a quarterly sum; quarters are marked —. For semi-annual (6-month) MBDA assessment, interim targets are the sum of Q1–Q2 and Q3–Q4 within each year. Blue cells are inputs to verify; quarterly figures sum to the annual targets that appear in the Project Narrative and Logic Model.
